Giving Back

Vound Colorado Ltd is proud to be associated with those who work hard every day and put their lives on the line to protect children.

We would like to give back to those who make a difference...

At Vound LLC we are committed to assisting in the process of catching criminals who prey on children. We will be giving away a copy of Intella® 100, every month, to an agency that investigates crimes against children. We hope that our software will make your job a little easier. The license will be for Intella® 100 and will not expire, or be subject to annual maintenance fees.

What is Intella® 100 and how can it help you?

Intella® 100 is a powerful email investigation/e-discovery software tool that allows you to quickly search and analyze email and data. Intella® is visual, intuitive, and easy to learn. Our software supports most email formats and file types such as image files, text files, PDF files, and files generated by Microsoft Office. Intella® 100 enables you to search up to 100GB of storage data.

For more information on our products please visit our website
www.vound-software.com

To apply for an Intella® license* please complete the following:

Name of person applying: _____

Agency or taskforce: _____

Address: _____

Telephone: _____

Email: _____

Please tell us in two or three sentences how you would utilize the software to enhance your investigations into crimes against children:

Completed forms to be returned to:

givingback@vound-software.com

All information provided is subject to verification.

- ☐ Vound LLC would like to announce the winning agency each month. Please check here if you do not want us to share your information.
